*Be it enacted by the Senate and House of Representatives of the Philippines in
Congress assembled:*

1 SECTION 1. *Title.* – This Act shall be known as the “Final Limits of
2 Forestlands in the Province of Biliran”.

3 SEC. 2. *Declaration of Policy.* – It is the policy of the State to
4 conserve, protect and develop the forest resources of the country in order to
5 attain ecological balance, preserve valuable ecosystems, prevent environmental
6 degradation and promote sustainable development for the present and future
7 generations. To achieve these ends, Section 4 of Article XII of the 1987
8 Constitution mandates Congress to determine by law the specific limits of
9 forestlands, marking clearly their boundaries on the ground.

10 SEC. 3. *Definition of Terms.* – As used in this Act, the following
11 terms shall be defined as follows:

12 (a) *Agricultural lands* refer to alienable and disposable lands of the
13 public domain which have been the subject of the land classification system
14 and declared as not needed for forest purposes.

1 (b) *Delimitation survey* refers to the establishment of land classification
2 boundaries and the monumenting thereof through ground survey.

3 (c) *Delineation* refers to the conduct of site investigation, field
4 reconnaissance and assessment, and staking of boundaries between forestlands,
5 national parks and agricultural lands, verified in the field in accordance with
6 the criteria set forth under Department Administrative Order (DAO) 2008-24.

7 (d) *Forestlands* refer to all lands of the public domain already
8 classified as forestlands according to existing land classification maps issued
9 by the Department of Environment and Natural Resources (DENR); all
10 permanent forest reserves proclaimed as such by the President or declared by
11 Congress through law; and such areas within the unclassified lands of the
12 public domain that were assessed and delineated by the DENR in accordance
13 with existing laws, rules and regulations.

14 (e) *Protected area* refers to identified portions of land and/or water set
15 aside by reason of their unique physical and biological significance, managed
16 to enhance biological diversity and protected against destructive human
17 exploitation.

18 SEC. 4. *Scope.* – In accordance with the results of the assessment
19 and delineation conducted by the DENR Region 8, the forestlands of the
20 Province of Biliran has an aggregate area of twenty-three thousand nine
21 hundred ninety-two and 22/100 (23,992.22) hectares comprising five (5)
22 blocks of both upland and mangrove areas.
