**AN ACT**  
**TO ENHANCE PUBLIC FINANCIAL MANAGEMENT IN LOCAL GOVERNMENT**  
**UNITS BY AMENDING CERTAIN PROVISIONS IN REPUBLIC ACT NO. 7160,**  
**OTHERWISE KNOWN AS THE "LOCAL GOVERNMENT CODE OF 1991"**

EXPLANATORY NOTE

Over three decades from the enactment and implementation of the Local Government Code (R.A. 7160), the importance of efficient and effective local public financial management has risen with the intensifying complexity of local governance and service delivery.

The local government units (LGUs) have realized that to significantly reduce local poverty and provide basic services in a sustained and sustainable manner, they can no longer rely simply on year-to-year planning and budgeting. There is a need to shift from short-term public financial management to medium and long-term public financial management, and to achieve this the LGUs will need guidance from national government agencies.

To improve public financial management at the local level, there is a need to provide oversight and guidance that is not only timely, relevant and effective but also respectful of the principles of local autonomy. There is also a need to harmonize and complement if not integrate local public investment with national public investment. Again, this only highlights the need to enhance the capacity of LGUs for public financial management includes but is not limited to planning, investment programming, budgeting, revenue mobilization and administration, expenditure management, performance monitoring and management.

With this in mind, this bill mandates oversight national agencies—the Department of Interior and Local Government (DILG), the Department of Budget and Management (DBM), the Department of Finance (DOF) and the National Economic and Development Authority (NEDA) to provide guidance in matters regarding local public financial management (PFM). LGUs are then mandated to incorporate whatever guidance provided by said oversight national agencies with their PFM activities.

This bill likewise emphasizes the oversight role of the Regional Development Council and the Province, City and Municipal governments over their respective component LGUs in matters regarding PFM. Finally, this bill encourages harmonization and complementarity if not integration between local and national plans and investment programs.

In view of the foregoing, approval of this bill is earnestly requested.
