

NINETEENTH CONGRESS OF THE)
REPUBLIC OF THE PHILIPPINES)
First Regular Session)

'22 JUL 18 A10 :08

SENATE

S. No. 686

RECEIVED BY: 

Introduced by SENATOR RAMON BONG REVILLA, JR.

**AN ACT
AMENDING TITLE V – BOOK III OF REPUBLIC ACT 7160, OTHERWISE
KNOWN AS THE LOCAL GOVERNMENT CODE OF 1991, PROPOSING A
PERMANENT ITEM FOR A DISASTER OFFICER IN EVERY LOCAL
GOVERNMENT UNIT**

EXPLANATORY NOTE

An inexhaustible number of deadly typhoons, earthquakes, volcanic eruptions and other natural disasters have brought its wrath into the Philippines. This is mainly because of the country's geographic location – being along the Ring of Fire, or typhoon belt. The Ring of Fire is one of the most geologically active areas where active volcanoes are located surrounding the Pacific Ocean.

This fact alone makes it imperative for the country to have a systematic disaster risk reduction and response mechanism that would equip Filipinos in dealing with natural disasters.

In response, Republic Act 10121, otherwise known as the Philippine Disaster Risk Reduction and Management Act of 2010 was enacted. Pursuant to the law, the National Disaster Risk Reduction and Management Framework (NDRRMF) shall provide a **community-based** disaster risk reduction and management, a process of disaster risk reduction and management in which at risk communities are actively engaged in the identification, analysis, treatment, monitoring and evaluation of disaster risks in order to reduce their vulnerabilities, and enhance their capacities. It also puts the people at the heart of decision-making and implementation of disaster

risk reduction and management activities; and provide for a comprehensive, all hazards, multi-sectoral, inter-agency and community-based approach to disaster risk reduction and management. In this light, it is significant that each local government assigns a disaster risk officer with a permanent status and be required to establish an office that is exclusively for disaster risk operations. With this, it will be easier to satisfy the purpose in providing assistance in their respective communities in times of devastation, and for those affected to easily move forward and go back to their normal life.

This bill, therefore, seeks to assign a permanent Disaster Risk Officer in each local government unit to complement RA 10121. Under this measure, every local government unit's organisational structure will be more dynamic, efficient and each will have an operating mechanism that will meet the needs and service requirements of every community.

In this regard, passage of this bill is earnestly sought.

RAMON BONG REVILLA, JR.
