

RECORD OF THE SENATE

TUESDAY, OCTOBER 17, 2000

OPENING OF THE SESSION

At 3:32 p.m., the Senate President, Hon. Franklin M. Drilon, called the session to order.

The President. The 28th session of the Third Regular Session of the Eleventh Congress is hereby called to order.

Let us all stand for the opening prayer to be led by Sen. Anna Dominique Coseteng.

Everybody rose for the prayer.

PRAYER

Senator Coseteng.

Mahal naming Ama, Panginoon ng sanlibutan, Aming Diyos at Diyos na lumikha ng lahat ng nakikita at hindi nakikita, kami ay nagtitipon ngayon upang magbigay papuri at pasasalamat sa Inyong walang hanggang kadakilaan.

Kami ay dumudulog din sa Inyong harapan upang kami ay maging matibay sa lahat ng pagsubok at kapahamakan. Hinihiling namin na sana ay patubayan Ninyo ang bansang Pilipinas at ang mga namumuno nito, ngayong aming hinaharap ang matinding pagsubok at krisis pang-ekonomiya at pampulitika. Pagliwanagin po Ninyo ang pag-iisip ng bawat isa sa amin upang magampanan namin nang wasto ang aming mga tungkulin.

Gayundin po, ang aming hiling para sa bawat mamamayan, ay magkaroon ng pagkakaisa at pagtutulungan na sana po ay isantabi ang pansariling kapakanan para sa kapakanan ng higit na nakararami. Basbasan po Ninyo ang bawat isa sa amin. Marapatin po ninyong malunasan ang pag-aalitag nananaig ngayon. Sa kalagitnaan ng mga isyung pampulitikang kinakaharap ng Pangulong Joseph Estrada at ng kanyang administrasyon, nawa ay katotohanan lamang ang mangibabaw dito at maisiwalat sa aming mga mamamayan ang lahat ng mga panig at kasama na rin ang iba't ibang karumaldumal na mga katiwalian noong panahon ng dating administrasyon nang may matitibay na ebidensiya sa ngalan ng katarungan.

Tulongan po Ninyo kami na makahanap ng lunas para sa suliraning pang-ekonomiya ng bansa. Nawa'y

ang tamang pag-iisip at kahinahunan at hindi karanasan ang maghari sa puso ng bawat Pilipino ngayon at sa oras ng kagipitan.

Magkaroon po sana ng katahimikan at kapayapaan dito sa aming bansa. Huwag sana kami magpadala sa mga mapanirang elemento na sakim sa kapangyarihan at nag-aabang lamang ng pagkaka-taong maibagsak ang pambansang ekonomiya at pamahalaan nang sila ay makabalik muli sa kapangyarihan.

Hanguin po Ninyo kami sa pagkalugmok at alisin po Ninyo ang kasakiman, inggitan, paninira, pagsasawalang-bahala at lahat ng hindi magandang pag-uugali sa aming mga isipan. Bagkus ito ay mapalitan ng pagtutulungan para sa isang maganda at matiwasay na kinabukasan.

Salamat po, Ama, sa lahat ng biyayang ipinagkaloob Ninyo. Mabuhay nawa kami nang naaayon sa Inyong kagustuhan.

Lahat ng ito ay aming hinihiling sa ngalan ni Jesus na aming Manunubos at ng Iyong Banal na Espiritu.

Amen.

Senator Pimentel. With great pleasure, Mr. President.

Senator Defensor Santiago. Thank you. I am a former member of the faculty of UP College of Law and I went out of my way to seek the opinions and the comments of the professors in the UP College of Law who teach the subject of Local Government.

I am happy and proud to inform our colleagues that there is an undisputed consensus among these professors that, in

As an advocate of women's rights, how can we be assured through this proposal that Muslim women have their place in society by providing them with the right to engage in employment, especially in these times that incomes brought about by the husbands are inadequate to sustain the needs of the family?

Senator Pimentel. Mr. President, the inhibition against women working, earning their keeps in Muslim societies is probably a cultural thing. So that it will take time before we can really insist by a legal provision explicitly stating that women be allowed to work or to earn their own livelihood or whatever, along that line.

Now, let me point out however that there is a provision embodied in this bill that makes the grant of more funds to the autonomous region dependent on the recognition of basic human rights and probably, we can include this right of women that the lady senator is thinking about as one of those things that the autonomous region must implement if it is to avail itself of additional financial support or some such thing from the central government.

Senator Legarda-Leviste. I would appreciate the distinguished sponsor's acceding to the inclusion of that at the proper time, Mr. President.

At this time, I would like to thank the distinguished sponsor for kindly answering my questions.

Senator Pimentel. Thank you very much, Mr. President.

The President. The Majority Leader is recognized.

SPONSORSHIP SPEECH OF SENATOR AQUINO-ORETA

Senator Aquino-Oreta. Thank you, Mr. President.

Mr. President, esteemed colleagues:

I have the honor to present to this august Chamber an important piece of legislation which seeks to amend Republic Act No. 8496, also known as the Philippine Science High School System Law, in order to facilitate this law's declared objective to rationalize the establishment and governance of Philippine Science High Schools nationwide.

Republic Act No. 8496 was enacted in 1998 so that the four different Philippine Science High School campuses existing at that time may be able to work towards ensuring that only one standard of instruction is followed. This is based on the premise that if all their students are required to master a uniform set of desired learning competencies, the quality of their graduates can be assured, and will potentially be part of our growing talent pool of people capable of handling the challenges of science and technology for our country's development.

Mr. President, esteemed colleagues, we are all aware that science and technology are major components of the engine

of growth of a country. We have seen the experiences of countries that invested substantially in science and technology, and the rewards they have reaped as reflected in terms of increasing GNPs and their improved standard of living.

The Philippine Science High School was precisely established to identify, nurture and develop our young learners who have an extraordinary aptitude in science and technology. Admitting only those who have hurdled its rigorous and challenging selection process, the Philippine Science High School has become home to the best and the brightest high school students in the country.

I understand that of its 6,882 graduates, 90% have pursued careers in science, mathematics and engineering; 77.7% are employed locally, either in the private sector or in government; while 5.3% have gone into entrepreneurship.

The concern on its ability to sustain the quality of its graduates in the face of its expansion, as it were, is therefore both rightly placed and, above all, timely.

The Philippine Science High School System

Republic Act No. 8496 was enacted in 1998, creating the Philippine Science High School System for the following purposes:

* To integrate the existing Philippine Science High Schools in Quezon City, Iloilo, Leyte, and Davao into one system of governance;

* To ensure uniformity in quality standards, and systematize the operations of schools under the Philippine Science High School System; and

* To rationalize the establishment of science high schools.

Mr. President, esteemed colleagues, it is submitted that RA No. 8496 is deficient in that it has failed to anticipate the establishment of subsequent Philippine Science High Schools, and the establishment of separate governing boards.

Prior to the enactment of RA No. 8496, three new Philippine Science High School campuses were established: one in Lanao del Norte, one in Nueva Vizcaya, and another in Camarines Sur.

The question of governance has also come to fore. These new Philippine Science High School campuses have established their own governing boards. In an environment where

several governing bodies are able to determine their own standards of instruction, the objective of uniformity in quality standards will inevitably drift beyond attainability.

Features of the Proposed Amendments

To address these concerns, each region shall be given equal opportunity to benefit from the establishment of the Philippine Science High School System, hence, we propose to limit the number of Philippine Science High School campuses to only one per administrative region. In this way, the Philippine Science High School education will become accessible to more deserving and talented Filipino learners. At the same time, this thrust will be tempered by the recognition of the reality of limited resources, not only in terms of funds but the availability of qualified science and mathematics teachers as well.

We also want to strengthen the governance of the Philippine Science High School System by consolidating the powers and authority over all the Philippine Science High School campuses in the Philippine Science High School System Board of Trustees. To assist the Executive Director in the administration of the expanded PSHS system, a Deputy Executive Director, appointed by the board for a term of six years, renewable for another term, is likewise proposed.

The Philippine Science High School System Board will be further strengthened through the membership of the chairpersons of the Congressional Committees on Science and Technology, who will be in a position to link the Philippine Science High School to other developments in science and technology.

We also propose to allow the individual Philippine Science High School campuses to use all income generated by the school in pursuit of its functions. It is hoped that through this, the Philippine Science High School System may be weaned away from its dependence on government subsidies.

Furthermore, the amendments will fix the sites of the Philippine Science High Schools in Lanao del Norte and Camarines Sur, in the municipality of Balo-i, Lanao del Norte, and in the municipality of Goa, Camarines Sur.

Lastly, the Nueva Vizcaya Science High School, the Philippine Science High School in Lanao del Norte, and the San Rafael Science High School will be formally absorbed into the Philippine Science High School System, as we propose to integrate the existing Philippine Science High Schools at Diliman, Nueva Viscaya, Camarines Sur, Iloilo City, Leyte, Lanao del Norte and Davao City into one system of governance and management.

Conclusion

Mr. President, honorable colleagues, I urge all to support these proposed amendments to Republic Act No. 8496. With these amendments, Republic Act No. 8496 will have the effect it was intended to have; and that is, to ensure that we would have the human resources to meet the demands of an increasingly technology-based economy.

Thank you, Mr. President.

The President. The Majority Leader is recognized.
